The BuyBoard National Purchasing Cooperative streamlines the purchasing process for schools and municipalities across the nation— and membership is free!

Compliance and transparency

Contracts and vendors awarded through BuyBoard have been competitively procured, to assist members with compliance with local and state procurement requirements and a documented audit trail. Transparency in the procurement process is of paramount importance. All vendors are treated on equal terms and are on the same plane of competition.

Value and choice

With a wide range of contracts available, members will find almost everything needed to support their District. The BuyBoard philosophy has always been that members know best which products they need, and the choice of vendor is their decision to make.

Efficiency and cost savings

Because a competitive procurement process has been completed by the Cooperative, members save time and resources that would have been spent on preparing a formal RFP. Besides reducing administrative costs, members achieve additional savings through competitive pricing.
